PROGRAMMA BELGIË LED EVENT 2016

09:30 09:55	Tailored lighting with freeform optics <i>Youri Meuret, Laboratorium voor Lichttechnologie - KU Leuven, Technolecampus Gent</i>			
10:00 10:25	Digital communications in LED drivers' platforms <i>Wen wu or Giacomo Mazzulo, Mean Well on behalf of Koning & Hartman</i>	Color temperature, chromaticity and color rendering (Ra and TM-30)! What is it all about? <i>Peter Karp, Konica Minolta Sensing Europe</i>	Coating & potting compounds for LED applications. An overview of capabilities, limitations & trouble shooting <i>Sven Kramer, Peters Coating Innovations on behalf of Rotec</i>	Trends and applications of OLED Technology <i>Marcus Lippert, Ecomal Europe</i>
10:30 11:15	Pauze			
11:15 11:40	Ready-to-use Intelligence in Smart Lighting Control <i>Dimitri De Rop, Inventronics on behalf of Alcom electronics</i>	LED with high color saturation, illustrated with the TM30 method <i>Navid Delassae, Citizen electronics on behalf of Elincom electronics</i>	Additive manufacturing (AM) en SMART-materials binnen de verlichtingsindustrie <i>Luc Coppens, Sirris</i>	LED-driver and light quality <i>Speaker to be announced, Osram</i>
11:45 12:10	Expanding LED technology options for street lighting <i>François Mirand, Future Lighting Solutions</i>	Human Centric Lighting control <i>Sigurd de Knijf, Helvar Lighting Controls</i>	Reliability of interconnects in LED lighting assemblies utilizing metal clad printed circuit boards <i>Nico Bruijnjs, Henkel Electronics</i>	Smart Lighting as a foundation for integrated Smart Building Platforms <i>Wim Hogenhout, Chess Wise</i>
12:15 13:40	Lunchpauze			

13:45 14:10	<i>Telerex</i>	De focus op IMS in vijf punten <i>Marc Geerdink, V-PC</i>	Human Centric Lighting is an example of real Smart Lighting <i>Martijn Knop, EBV Elektronik</i>	Transforming value chains in commercial environments <i>Patrick van der Meulen, Xicato on behalf of Luxendi</i>
14:15 14:40	LED Light engines-connect, protect, control - with proven industrial components <i>Lukas Muth, Phoenix Contact</i>	Waarom een COB holder invloed heeft op het thermisch design? <i>Marco van Drimmelen, Batenburg Mechatronica</i>	Visible Light Communication <i>Speaker to be announced, Microchip on behalf of Rutronik</i>	Diffusers: uitleg techniek, tips en best practices <i>Rob Satink, Acal BFi Netherlands</i>
14:45 15:25	Pauze			
15:30 15:55	Smart Lighting, Bright Cities <i>Frank den Ridder, Dazzletek en Sustainer</i>	Wireless connectivity in lighting and home automation <i>Scott Cooper, Silicon Labs on behalf of Arrow</i>	Spectral Light Meters for accurate LED lighting measurements <i>Mike Clark, Gigahertz Optik GmbH on behalf of Te Lintelo Systems BV</i>	New technologies and packages result in new challenges <i>Laurent Petrus, Avnet Silica</i>
16:00 16:25	Digitalization of light, Internet of Luminous Things and new opportunities emerging for the lighting industry <i>Geert van der Meer, Osram Digital Systems</i>			
16:30	Networking with drinks
